8 October 2010

Bernard, Balgley & Bonaccorsi is a quality oriented law firm in the Fremont-Newark area of the San Francisco Bay Area, and serves the legal needs of its clients throughout Northern California. Our clients range from individuals to large national corporations which trade on the New York Stock Exchange. Our firm provides legal services in the areas of Litigation, Land Use and Real Estate, Insurance Defense, Business Law, Estate Planning and Probate, Personal Injury and Family Law.

We take pride in catering to the needs of the individual client, whether that client is an individual, or small or large business. We have built enduring relationships with our clients based on honesty, trust and dedication to the needs of the particular client. We have represented many of our clients for more than 20 years. Our firm gets most of its business from referrals from clients, judges and other lawyers.

Case intake is limited so that extensive personal attention and meticulous trial preparation are afforded on all matters. Our specialized expertise, aggressive advocacy and extensive case preparation has fostered an outstanding record of success at all levels. Yet we are strong believers in providing practical advice to our clients in order to save them time and money. We have the knowledge and experience to successfully assist each client with a broad range of legal concerns.

Our mission is to provide quality representation in a manner that will be the most practical and beneficial to our client. We are committed to thorough preparation of every case. No detail is too small. Our sole duty is to seek the most appropriate remedy with the best interests of our client in mind. To do this we focus our commitment to remaining a small boutique law firm with an emphasis on the following areas:

- Litigation
- Land use and Real Estate
- Insurance Defense
- Business Law
- Estate Planning
- Family Law
